NEW OWNER CARE GUIDE

Congratulations on your new family member!

Thank you for choosing Respectabullz Kennels for your new companion. This guide will help you provide the best care for CH Respectabullz Diamond Queen. Please don't hesitate to reach out if you have any questions.

F

Feeding Guidelines

Recommended Diet

Feed a high-quality, age-appropriate dog food. We recommend premium brands that list meat as the first ingredient. Avoid foods with corn, wheat, or soy as primary ingredients.

Feeding Schedule

PUPPIES (8-12 WEEKS)
3-4 meals per day

PUPPIES (3-6 MONTHS)
3 meals per day

PUPPIES (6-12 MONTHS)
2 meals per day

ADULTS (1+ YEARS)
1-2 meals per day

! Important
Always provide fresh, clean water. Avoid sudden food changes - transition slowly over 7-10 days if switching brands. Never feed chocolate, grapes, raisins, onions, or xylitol-containing products.

CARE GUIDE - GROOMING & TRAINING

G Grooming

Regular grooming is essential for your dog's health and comfort. Here's a recommended schedule:

Task	Frequency	Notes
Brushing	Weekly	2-3x/week during shedding season
Bathing	Monthly	Or as needed; avoid over-bathing
Nail Trimming	Every 2-4 weeks	Keep nails short to prevent issues
Ear Cleaning	Weekly	Check for redness or odor
Teeth Brushing	Daily	Use dog-specific toothpaste
Eye Cleaning	As needed	Wipe away discharge gently

E Exercise & Training

Exercise Needs

American Bully dogs typically need moderate daily exercise. Aim for 30-60 minutes of activity daily, including walks, playtime, and mental stimulation. Puppies need shorter, more frequent play sessions.

Training Tips

- Start training early - socialization is crucial in the first 16 weeks
- Use positive reinforcement - treats, praise, and play work best
- Keep sessions short (5-10 minutes) and end on a positive note
- Be consistent with commands and rules across all family members
- Consider puppy classes or professional training for best results

TIP: Pro Tip
Mental stimulation is just as important as physical exercise. Use puzzle toys, training games, and new experiences to keep your dog engaged and happy.

CARE GUIDE - VETERINARY & SUPPORT

V Veterinary Care

Recommended Schedule

FIRST VET VISIT
Within 72 hours of bringing puppy home

WELLNESS EXAMS
Annually (bi-annually for seniors)

Vaccination Schedule

Continue vaccinations as recommended by your veterinarian. Core vaccines typically include DHPP (distemper, hepatitis, parvo, parainfluenza) and rabies. Your vet may recommend additional vaccines based on lifestyle and location.

Preventative Care

- Heartworm prevention - year-round monthly treatment
- Flea & tick prevention - monthly, especially in warm months
- Regular deworming - as recommended by your vet

ALERT: When to Seek Emergency Care
Difficulty breathing, persistent vomiting/diarrhea, bloated abdomen, inability to urinate, seizures, loss of consciousness, severe bleeding, or trauma. When in doubt, call your vet.
